# INDEX

TO THE

*ISSUE OF 1931*

OF THE

# QUARTERLY JOURNAL

A.

PAGE

Acidified E. C., use of—in factories ... ... ... 24
Artificial manures, efficiency of— ... ... ... 172
,, ,, value of— ... ... ... 173

B.

Blood meal ... ... ... ... ... 174
Bunch caterpillar ... ... ... ... ... 189
,, ,, life cycle ... ... ... ... 190

C.

Calcium cyanamide, value of— ... ... ... 175
Calendar, Garden— ... ... ... ... 69
Cattle manure, value of— ... ... ... ... 169
Caterpillar pests on tea and green crops ... ... ... 129
Chloride of ammonia ... ... ... ... 174
Chlorine, variation of—in E. C. ... ... ... 27
Cleaning out ... ... ... ... ... 120
Cluster caterpillar ... ... ... ... ... 189
Control of insects by cultural methods ... ... ... 81-83
Cultivation and economy ... ... ... ... 122
Cutting back tea and economy ... ... ... 117

D.

Divided doses of nitrogenous manures ... ... ... 2

E.

E. C., chemistry of reaction of— ... ... ... 25
,, method of using acidified— ... ... ... 26
,, use of acidified—in factories ... ... ... 24
,, variation of chlorine content of— ... ... ... 27

E.—(*continued.*)

| | PAGE |
|---|---|
| Economy and cutting back tea ... ... ... | 117 |
| ,, ,, cleaning out ... ... ... ... | 120 |
| ,, ,, cultivation ... ... ... ... | 122 |
| ,, ,, light pruning ... ... ... | 118 |
| Electrolytic chlorine (*see* E. C.) ... ... ... | 24 |
| Entomological Conference, Third Imperial— ... ... | 75 |
| Essential Garden Work and Possible Economics ... ... | 115, 159 |

F.

| | |
|---|---|
| First flush and quality ... ... ... ... | 56 |
| Flavour and second flush ... ... ... ... | 57 |

G.

| | |
|---|---|
| Garden Calendar ... ... ... ... ... | 69 |
| Green crops, nitrogen from— ... ... ... ... | 166 |
| ,, ,, semi-permanent, nitrogen from— ... ... | 167 |
| ,, leaves, cut, value of— ... ... ... ... | 171 |
| ,, shoot cuttings, propagation of tea by— ... ... | 49 |
| Greying of Tea ... ... ... ... ... | 139 |
| ,, before cutting and sorting ... ... ... | 142 |
| ,, developed during firing ... ... ... | 143 |
| ,, during cutting ... ... ... ... | 140 |
| ,, ,, sorting ... ... ... ... | 141 |

H.

| | |
|---|---|
| Heavy pruning and stem disease ... ... ... | 145 |

L.

| | |
|---|---|
| Labour required to pluck tea ... ... ... ... | 62 |
| Light pruning and economy ... ... ... ... | 118 |
| Looper caterpillar ... ... ... ... | 129 |

M.

| | |
|---|---|
| Manuring, economy of— ... ... ... ... | 160 |
| ,, effect of—on tilth ... ... ... | 185 |
| ,, and maintenance ... ... ... ... | 159 |
| ,, essential elements of— ... ... ... | 159 |
| ,, need for continuous— ... ... ... | 180 |
| Meteorological Observations in North East India, 1930 ... | 104 |
| Monthly Garden calendar ... ... ... ... | 69 |
| Moran Circle soils ... ... ... ... | 47 |

## N.

| | PAGE |
|---|---|
| Nazira Circle soils ... ... ... ... ... | 45 |
| Nervox, effect of—on tilth ... ... ... ... | 187 |
| ,, value of— ... ... ... ... | 178 |
| Nitrate of soda, value of— ... ... ... ... | 174 |
| ,, ,, effect of—on tilth ... ... ... | 187 |
| Nitrogenous manures, effect of time of application ... ... | 6 |
| ,, ,, single and divided doses ... ... | 1 |
| ,, manuring ... ... ... ... | 172 |
| ,, ,, economics of— ... ... ... | 10 |
| ,, ,, experimental details of— ... ... | 14 |

## O.

| | |
|---|---|
| October and November teas ... ... ... ... | 68 |
| Oilcake, value of— ... ... ... ... | 174 |
| Organic manures, value and economics of— ... ... | 176 |

## P.

| | |
|---|---|
| Plucking for quality ... ... ... ... | 53 |
| ,, and labour required ... ... ... | 62 |
| Propagation of Tea by Green Shoot Cuttings ... ... | 49 |
| Pruning and starch reserves ... ... ... ... | 152 |
| ,, heavy,—and starch reserves ... ... ... | 157 |

## Q.

| | |
|---|---|
| Quality and first flush ... ... ... ... | 56 |
| ,, ,, second flush ... ... ... ... | 57 |
| ,, plucking for— ... ... ... ... | 53 |
| ,, and skiffing ... ... ... ... | 55 |
| ,, ,, unpruned tea ... ... ... ... | 54 |

## R.

| | |
|---|---|
| Rainfall, variability of— ... ... ... ... | 107 |
| Rains teas and quality ... ... ... ... | 60 |

## S.

| | |
|---|---|
| Season 1930 in Assam ... ... ... ... | 104 |
| Second flush and flavour ... ... ... ... | 57 |
| Shade trees, as supplying nitrogen ... ... ... | 164 |
| Sibsagar District, climate of— ... ... ... | 34 |
| ,, ,, map ... ... ... ... | 48 |
| ,, ,, geography and Geology of— ... ... | 28 |
| ,, ,, soil survey ... ... ... | 28 |

S.—(*continued.*)

| | PAGE |
|---|---|
| Sibsagar District, tea industry in— ... ... ... | 30 |
| ,, ,, soil types ... ... ... ... | 35 |
| ,, soils, typical— ... ... ... ... | 36, 40 |
| ,, ,, treatment of— ... ... ... | 41 |
| Skiffing and quality ... ... ... ... | 55 |
| ,, in mid season ... ... ... ... | 67 |
| Single doses of nitrogenous manures ... ... ... | 1 |
| Soils, classification of— ... ... ... ... | 36 |
| Sonari Circle, soils of— ... ... ... ... | 43 |
| Starch reserves, fluctuations of— ... ... ... | 147 |
| ,, ,, and disease ... ... ... | 148 |
| ,, ,, healing of wounds ... ... ... | 150 |
| ,, ,, and pruning ... ... ... | 149 |
| ,, ,, in tea roots ... ... ... ... | 149 |
| ,, ,, test for— ... ... ... ... | 149 |
| Stem disease and heavy pruning ... ... ... | 145 |
| Sulphate of ammonia, value of— ... ... ... | 174 |
| ,, ,, effect of—on tilth ... ... ... | 187 |

T.

| | |
|---|---|
| Third Imperial Entomological Conference ... ... | 75 |
| Tilth, effect of manuring on— ... ... ... | 185 |
| Top dressing, value of— ... ... ... ... | 171 |
| Tulsipara Experimental Block ... ... ... | 94 |
| ,, ,, ,, plan of— ... ... | 103 |
| ,, ,, ,, soil of— ... ... | 95 |
| ,, ,, ,, tea of— ... ... | 96 |
| ,, cultivation Experiments ... ... ... | 101 |
| ,, manuring Experiments ... ... ... | 98 |
| ,, plucking ,, ... ... ... | 100 |
| ,, pruning ,, ... ... ... | 97 |
